Vol. 36 No. 10

UNION, NJ

June, 1995

PROGRAM DIRECTOR'S REPORT

I am pleased to report that the 1994-1995 Columbian year was an outstanding one for Union Council. Without the extraordinary talents of our Directors and Chairmen, the programs could not have succeeded. Using their own resources and being highly motivated, many innovative and unique approaches to their programs were developed. Their sacrifice to bring activities to the council membership should be recognized by the brothers.

As with every organization, no one can be a one-man show. I wish to thank all those brothers who supported the chairmen by cooking, bartending, setting up and running around to purchase food and supplies. While your names did not appear on the programs, the programs could not have gone forward without your efforts.

Last and very important, a thank you to the wives who allowed all of these men time from their families to assist with the running of our council.

I wish to thank everyone for their support and extend my appreciation for all your endeavors. Because of your efforts, you made my job easy.

*Andrew F. Popp
Program Director*

Mike Malloy, Chairman—908-810-0862

A PRAYER FOR FATHERS

May God, who gives life on earth and in heaven, lead you to walk by the light of faith and so help your children attain the good things Christ had promised us.

A MESSAGE TO MY BROTHER KNIGHTS

*For service contact
Rich Fuentes 908-253-0013*

The following article was written by a member in New Jersey. He wrote to alert his fellow brothers to buy life insurance today.

I would like to share my thoughts with my fellow Knights on the subject of proper insurance coverage before problems occur that would limit or prohibit adequate protection for one's family.

As a young lad, I really never gave much thought to planning for insurance coverage because I always felt that I was healthy and would always be able to work. Death never entered my mind. This thought was valid until my 55th birthday. At that time, I suffered a major heart attack requiring by-pass surgery. That was followed by pleural effusion and more surgery which resulted in extensive nerve damage to the left side of my body. The result was long term disability (LTD) causing me to leave a well-paying position in a company that I worked for over 39 years.

My goals for retiring were no longer valid.
